* PPM/CPM measured after first page. Color photo measured from start of paper feed.
See www.epson.com/printspeed.

** Not available when printing using Mac OS X

*** Ink lightfastness ratings up to 200 years based on accelerated testing on specialty media,
stored in an album. Actual results vary according to media, image, display conditions, light
intensity, humidity and atmospheric conditions. Epson does not guarantee longevity. Visit
www.wilhelm-research.com.

**** Yields vary considerably based on images printed, print settings, paper type, frequency of
use and temperature. For print quality, a small amount of ink remains in the cartridge after
the "replace cartridge" indicator comes on. All-in-One ships with full cartridges and part of
the ink from the first cartridges is used for priming. See www.epson.com/cartridgeinfo.
