Simplicity Scale

Personalize baby's room with coordinating decorative elements using turn of the century baby patterns.

Make the new baby's room extra special with a unique way to display photos on free-form "b" for baby, using wired garland and flowers. Add photos with a glue gun or clips for an easy to create work of art for the wall. A coordinating door hanger will let everyone know baby is sleeping. Cover an old cigar box with the vintage baby papers and create a memento box that will safeguard treasures like a first tooth or lock of hair. You could even use it as a gift box for a baby shower gift. Download patterned pages and files FREE here at EpsonCreativeZone.com. Coordinating colors and designs will offer endless possibilities for creating projects for either baby boy or girl.
