

This is a disclosure statement from Epson America, Inc. for purposes of assisting federal employees to comply with Section 508 of the Rehabilitation Act of 1973. The information provided herewith is intended for informational purposes only and does not constitute a warranty of any kind.

<p><b>Criteria Section (s)</b></p>	<p><b>Supporting Features Epson PowerLite 62c, 82c, 76c, 83c, 77c</b></p>	<p><b>Remarks &amp; Explanations Epson PowerLite 62c, 82c, 76c, 83c, 77c</b></p>
<p><b>Video and Multi-media Products (1194.24)</b></p>		
<p>Multimedia products include, but are not limited to, video programs, narrated slide production, and computer generated presentations. Provisions address caption decoder circuitry (for any system with a screen larger than 13 inches) and secondary audio channels for television tuners, including tuner cards for use in computers. The standards also require captioning and audio description for certain training and informational multimedia productions developed or procured by Federal agencies.</p>		<p>Overall N/A</p>
<p>(a) All analog television displays 13 inches and larger, and computer equipment that includes analog television receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals. As soon as practicable, but not later than July 1, 2002, widescreen digital television (DTV) displays measuring at least 7.8 inches vertically, DTV sets with conventional displays measuring at least 13 inches vertically, and stand-alone DTV tuners, whether or not they are marketed with display screens, and computer equipment that includes DTV receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals</p>	<p>N/A</p>	<p>This is not applicable, as the Epson multimedia projectors do not include a television receiver. The PowerLite 83c projector supports Closed Caption by downloading and installing a firmware update from Epson America's website under the Driver's and Support product link.</p>
<p>(b) Television tuners, including tuner cards for use in computers, shall be equipped with secondary audio program playback circuitry.</p>	<p>N/A</p>	<p>This is not applicable, as the Epson multimedia projectors do not include a television tuner.</p>
<p>(c) All training and informational video and multimedia productions which support the agency's mission, regardless of format, that contain speech or other audio information necessary for the comprehension of the content, shall be open or closed captioned.</p>	<p>N/A</p>	<p>This is not applicable, as this is a requirement of the software product, not the hardware. Epson is not offering video or multimedia "productions," only hardware.</p>
<p>(d) All training and informational video and multimedia productions which support the agency's mission, regardless of format, that contain visual information necessary for the comprehension of the content, shall be audio described.</p>	<p>N/A</p>	<p>This is not applicable, as this is a requirement of the software product, not the hardware. Epson is not offering video or multimedia "productions," only hardware. However, Epson's multimedia projectors offer both video and audio playback capability as available in the software production. The audio playback offers adjustable volume level control.</p>
<p>(e) Display or presentation of alternate text presentation or audio descriptions shall be user-selectable unless permanent.</p>	<p>N/A</p>	<p>This is not applicable. It is a function of the playback device (i.e., VCR, DVD player) not the projector. All Epson projectors offer user-selectable inputs.</p>

<p><b>Criteria Section (s)</b></p>	<p><b>Supporting Features Epson PowerLite 62c, 82c, 76c, 83c, 77c</b></p>	<p><b>Remarks &amp; Explanations Epson PowerLite 62c, 82c, 76c, 83c, 77c</b></p>
<p><b>Functional Performance Criteria (1194.31)</b></p>		
<p>Overall product evaluation to ensure that the individual components work together to create an accessible product.</p>		<p>Support with minor limitations</p>
<p>(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.</p>	<p>Limited Support</p>	<p>Limited Support - Audio indication for power on and off. Assistive technology features are a function of the attached source device.</p>
<p>(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 and 20/200 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people.</p>	<p>N/A</p>	<p>Assistive technology features are a function of the attached source device.</p>
<p>(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided.</p>	<p>Support</p>	<p>Support - No user hearing is required to operate this product or to retrieve information.</p>
<p>(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.</p>	<p>Support</p>	<p>Support - There are no auditory messages, sounds, etc. that the user must hear to operate this projector.</p>
<p>(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.</p>	<p>Support</p>	<p>Support - User speech is not required.</p>
<p>(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.</p>	<p>Support</p>	<p>Support - Control buttons are clearly labeled and easily accessible. The projectors are easily positioned so they can be viewed by all potential users. Control buttons are easily operated, requiring less than 5 pounds of force to actuate; are operational with only one hand; and do not require fine motor skills or bending.</p>
<p><b>Information, documentation and support (1194.41)</b></p>		
<p>Pertains to availability of alternate formats for all information, documentation, and support provided to end users of covered technologies</p>		<p>Support with minor limitations</p>
<p>(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge.</p>	<p>Support</p>	<p>Support - Product documentation is available in PDF format</p>
<p>(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.</p>	<p>Limited Support</p>	<p>Limited Support - Basic information on accessibility options is available in the product documentation.</p>
<p>(c) Support services for products shall accommodate the communication needs of end-users with disabilities.</p>	<p>Support</p>	<p>Support - Epson offers support via telephone, email and website.</p>
